

# Environmental Policy

Our business shall show great care for mankind and our environment. We shall strive for one of the best environmental performance, regarding our products, manufacturing and service, in the forestry business. This will be achieved by a decisive and determined leadership, continuous improvement and by participation of all employees.

Komatsu shall fulfil requirements set by society and authorities and continuously strive to reduce our impact on the environment.

## Environmental Focus

Our environmental work focus on the reduction of CO2 emissions, preventing pollution, reduce waste from our operation and reduce the consumption of water and energy. To continuously reduce our impact on the environment, we must be attentive, act proactively, give correct information in a timely manner and perceived swift and decisive in action.

## Leadership

All leaders shall show a strong commitment to environment by:

- Setting clear, visible targets.
- Developing the competence of employees and enabling them to participate in the environmental work.
- Base decision of actions on facts.

## Continuous improvements

We shall strive for continuous improvements and reduction of our impact on the environment. We shall document and improve our processes by:

- Maintaining fact based activities and execute countermeasures in a timely manner.
- Assess our performance and learn from others thru Benchmarking.
- Cooperation with suppliers and partners in order to leverage on the combined knowledge base.
- We shall strive to influence our Suppliers and Dealers to adhere to this policy

## Participation by all employees

Every employee within Komatsu Forest shall:

- Understand the need for swift and relevant communication in a timely manner.
- Understand his or her role and the need for their commitment to achieve the environmental targets in the daily work
- be given the training and authority needed to take responsibility for his or her work.
